

**ASRA  
POLYMER  
SAADAT**

# Smart Technology Best Quality

## Color MasterBatch

Unleash vibrant colours with our high-quality, custom-made **colour masterbatches** designed for all plastic applications. As a **leading manufacturer in Iran**, we help you achieve perfect shades—whether for **toys**, automotive parts, or **food** packaging.

## Black MasterBatch

Leading **black masterbatch** manufacturer in **Iran**, produces **high-performance** masterbatches with 10–50% carbon-black, offering deep black color, **UV resistance**, superior conductivity, and smooth finish.

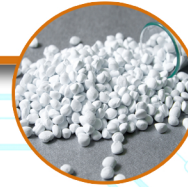

## White MasterBatch

Achieve clean, consistent, and customizable white coloration in your products with our **high-quality** masterbatch—offering excellent dispersion, **UV resistance**, and wide industrial applications from packaging to automotive parts.

## Filler MasterBatch

Enhance your **plastic product quality** and reduce costs with our premium filler masterbatch—made from **high-grade** minerals to boost strength, durability, and surface finish across diverse applications.

## Special Effect

Our **Special Effect Masterbatches** add unique visual effects—glitter, **metallic**, pearlescent, and color-shifting—offering customizable solutions for packaging, consumer goods, and automotive products.

## Additive Masterbatch

Enhance your **plastic products** with Asra Polymer's additive masterbatches **easy to use**, customizable, and designed to improve performance, appearance, and processing efficiency.

## Pet Masterbatch

Our **PET Masterbatch** delivers vivid colors, UV resistance, & excellent processability, enabling precise control and exceptional clarity for **FDA-approved** food and packaging applications.

## Engineering Masterbatch

Asra Polymer, a **leading Iranian producer of engineering masterbatches**, offers high-quality white, black, and color grades with **strong performance** and durability—providing consistent quality, a wide product range, and competitive pricing to elevate your final products.

## We're known for being the best at :

- Fluorescent masterbatches
- Metallic masterbatches
- Necklace masterbatches
- Glow-in-the-dark masterbatches
- Coral masterbatches
- Wood masterbatches
- Marble masterbatches
- Light-diffusing masterbatches

- UV & VCI Masterbatch
- Flame Retardant Masterbatch
- Optical Brightening Masterbatch
- Antistatic & Modifying Masterbatch
- Light Diffusion Masterbatch
- Anti-Rodent Masterbatch
- Anti-Block & Anti-Oxidant Masterbatch
- Slip & Silk Powder Masterbatch
- Moisture Absorbent Masterbatch

- ABS Masterbatches
- Nylon Masterbatches
- PET Masterbatches
- PBT Masterbatches
- PC Masterbatches
- SAN Masterbatches
- HIPS Masterbatches
